About IRTL

The IRTL is a Singapore based laboratory. The aim of IRTL is to provide the research facility to the individuals with research aptitude and thereby develop the skills and mold the youth. The IRTL was established to facilitate contract research for the industries as well as to extend a helping hand to the students in their research projects. IRTL conducts hands-on training programmes in Bioinformatics, Cheminformatics, Biotechnology and Computer Science. These programmes can also be done online, making it possible for students from any part of the world to participate in it.

The eminent members of the IRTL advisory committee from different parts of the world make sure that its students get the best. The IRTL is service oriented and believes service to science is service to mankind.

Mission

Our mission is to scale new heights of excellence in the field of Bioinformatics, Cheminformatics, Biotechnology and Computer Science and empower the students and make them prolific human resources.

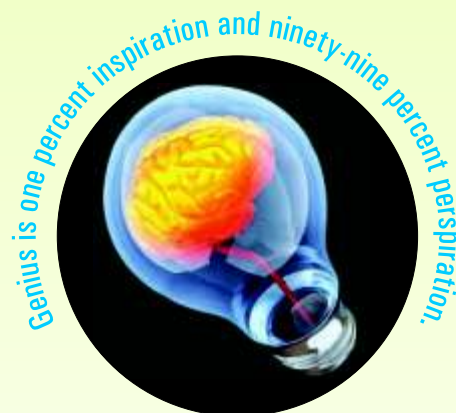

Vision

To enlighten researchers & students from India and other part of the world with knowledge of techniques in Bioinformatics, Cheminformatics, Biotechnology and Computer Science and become high quality training centre

*"Learning gives creativity
Creativity leads to thinking
Thinking provides knowledge
Knowledge makes you great"*

- Dr. A.P.J. Abdul Kalam, Former President of India

- Thomas A. Edison

*"Reading makes a full man,
conversation a ready man,
and writing an exact man."*
